

Dear Parents,

We can't believe our Year R celebration is fast approaching. Hope you saved the date; Tuesday 2nd April at 2.15pm, it will be lovely to see you. All the children have been very busy this half term being Space Explorers. Each week they have been given a new mission by Space Control to carry out, from creating lights for a rocket to exploring magnets, making slime and finding out what floats! Space Control has been very impressed with their findings and the children are keen to show you what they have been learning.

The celebration will be an opportunity for your child to show you what they have been doing and encourage you to have a go as well. There will be lots of different activities for you to explore and talk about with your child. You can become a Space Explorer too!

Please complete the permission slip below and **return it to us no later than Friday 29th March**. Please indicate if you wish to attend.

On the day please come to your child's classroom at 2.15pm. We will be asking you to sign your child out at the start of the event and then your child can guide you round all the different investigations. Once you have had a chance to explore them all, then feel free to leave with your child. However please be aware siblings will need to remain at school until 3.15pm as usual.

Thank you for all your support. We are really looking forward to our Year R Celebration and hope that you are too.

Yours sincerely,

The Year R Team
