

Dear Parents and Carers,

As with so many of you in our school community, the BSA's response to Brooke Leavey's medical condition has been swift and incredibly supportive.

I met with the executive committee yesterday and the following was agreed:-

- Funds raised from summer term BSA activities, starting with the 'Outdoor Cinema' event this Friday, will be donated to the campaign to support Brooke in the event of her being able to receive pioneering treatment.
- This figure (likely to be in the region of £6,000) will be matched with a further donation from existing funds.

Given that these are most likely to be unique circumstances, we feel it is absolutely right to support one of our families in this manner.

The BSA are very keen to ensure that all the summer events are a massive success and offer our community the opportunity to come together positively in the face of such distressing circumstances. Any offers of help by parents and ideas for fundraising will be gratefully received.

Holly Hornby and the team are ready and willing to give their all.

Kind regards,

Chris Reilly
Headteacher
