

Year 5 Summer Newsletter

Welcome to our final term in Year 5! To introduce our new Project 'What on Earth', the children had an afternoon of using compasses to find questions and clues around our school grounds. Back in the classroom, they worked collaboratively with maps, atlases and the internet to discover and research some important global issues surrounding the production of plastic. Throughout the rest of the term, we will be following the journey of 3 plastic bottles: one to landfill, one to the ocean and one to a recycling centre, and will be questioning the impact of each on the environment. The children will:

- Learn about how plastic is made and in particular, what is involved in the production of a plastic bottle of water.
- Learn about why plastic is ending up in landfill sites and in garbage patches in the oceans and the impact this might have on plants, animals and people.
- Learn about how plastic can be recycled and how we can make a positive change to environmental issues.
- Learn about the water cycle and how the water from our environment ends up in our taps.
- Question whether bottled water is better than tap water.

In order to do this, the children will become experts at locating continents, countries and oceans. Using maps, atlases and researching online will feature regularly in our project lessons.

Our celebration event at the end of this term, will involve us putting into action all we have learnt as we try to make a difference to our local environment by taking the children on a litter picking morning. We hope you will be able to join us for this event – more details to follow.

Weekly routines reminder...

Monday	Whole Year Group Outdoor PE (please note outdoor) Library (please ensure your child has their library book in school to change weekly on a Monday)
Wednesday	Whole Year Group Outdoor PE (please note second outdoor session)
Thursday	Spellings and Times Tables test
Friday	New spellings posted on Google Classroom

Snacks

A reminder that at break times, the children may have a small fruit or vegetable snack (with no packaging if possible please). They will also need a named water bottle (only containing water please) which may be kept in class.

Homework

Reading in the home is still such an important way to support your child's learning. Please encourage your child to read regularly at home and record this in their reading record log book which should be kept in their book bags. Spellings will be posted onto Google Classroom every Friday and tested the following Thursday. You can support your child by practising the list of words as well as other words that follow the same rule or pattern. Times tables knowledge is an integral part of our mathematics in Year 5 and we would encourage the continued practise of these every week. Your child will still be able to access their Times Tables Rock Star account.

Class Dojo

Communications can be made to your child's class teacher through 'Class Dojo'. Dojo is useful for quick communications about areas such as curriculum news or specific messages regarding behaviour and should be your first 'port of call' if you have any concerns. Your child's class teacher will access and respond to dojo messages around the school day and after school, during office hours. Communications regarding absence or any prolonged communications, please continue to email the school office or phone reception.
