

Monday 2nd December 2024

Dear Year 5 Parents and Carers,

We are excited to announce a star-gazing evening at Berrywood, as a supplement to our Spring term project on SPACE! On this special night, we will have the opportunity to spot various constellations, and if the sky is clear, we may even see several planets. With Mr. Roy's optical telescope, the rings of Saturn should be visible!

We will be holding one Stars at Berrywood event for each class, but, given the unpredictability of the British climate, we will pencil in several evenings, in the hope that at least one will be a clear night for each class.

Further details will be announced nearer the time. In the meantime, please help us by filling in this Google form, link below to indicate interest as well as any expertise you may have to offer.

<https://forms.gle/3bQ4N7BVHee6fiKu5>

Thank you for your support, and we look forward to an evening of exploration and wonder!

Kind regards,

The Year 5 team
